The home, sitting on a generous serving of land for the kids and pets to explore, is sophisticated, spacious and radiant with natural light. Replete with character features like soaring cathedral ceilings, it's a home that is easy on the eye, and serves every purpose you and your family desire. The bedrooms are large, commodious and separate, and the living spaces are easy-flowing, light-filled and clustered to take maximum advantage of the indoor-outdoor hosting opportunities the grand alfresco dining area presents. For the busy family, everyday living is a breeze, with amenities aplenty, and there's even a fifth bedroom downstairs for guests or extended family!
